

5" Mega Flow XL Piston Intake Valve with Pressure Relief Valve

www.awg-fire.com

Our newest compact design for pumper intake control allows easy maintenance. The valve provides the following features: a low profile 30 degree integrated elbow, a field adjustable pressure relief valve and a full 3/4" air bleeder. The new design offers the lowest friction loss and largest waterway available. Choose from a variety of sizes of Storz or NST connections.

- ✓ Large waterway
- ✓ Low friction loss
- ✓ Integrated 30 degree elbow
- ✓ Field adjustable 250 PSI pressure relief valve
- ✓ Large 3/4" air bleeder
- ✓ Compact design with folding handle
- ✓ Aluminum, stainless steel, or brass interiors
- ✓ Hard anodized and powder coated for best corrosion protection
- ✓ Easy to service

Technical data:

Length (from steamer outlet):	10 .5"
Height:	17"
Width:	8"
Weight:	31 lbs
Friction loss:	2.3 psi @ 1,000 gpm
Flow:	> 2,200 gpm
